

APPENDIX G. CRS RESOURCES

The following appendix provides resources to support the Community Rating System (CRS) program in Cape May County. This includes: repetitive loss area maps, stakeholder outreach and input, and the CRS crosswalk.

G.1 Repetitive Loss Area Maps

The following sections provide repetitive loss area maps prepared by several municipalities in Cape May County

.

Figure G-1. City of Cape May Repetitive Loss Areas

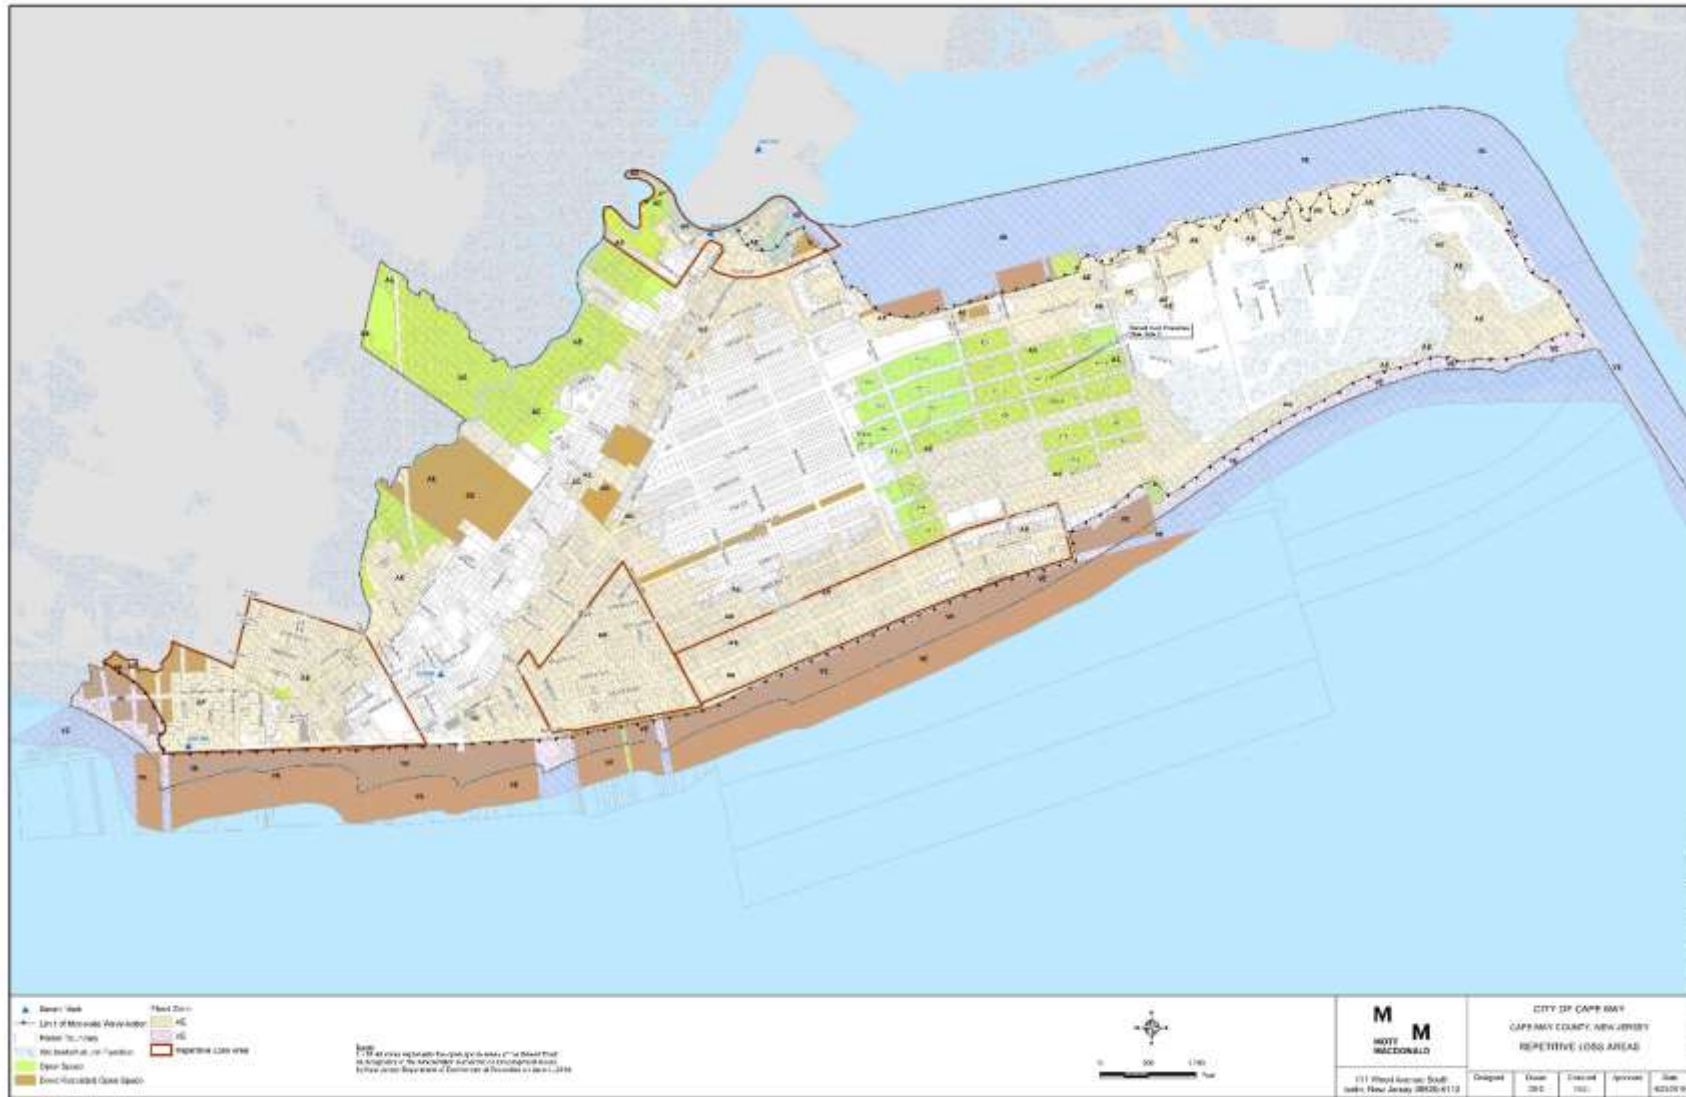

Figure G-2. Borough of Cape May Point Repetitive Loss Areas

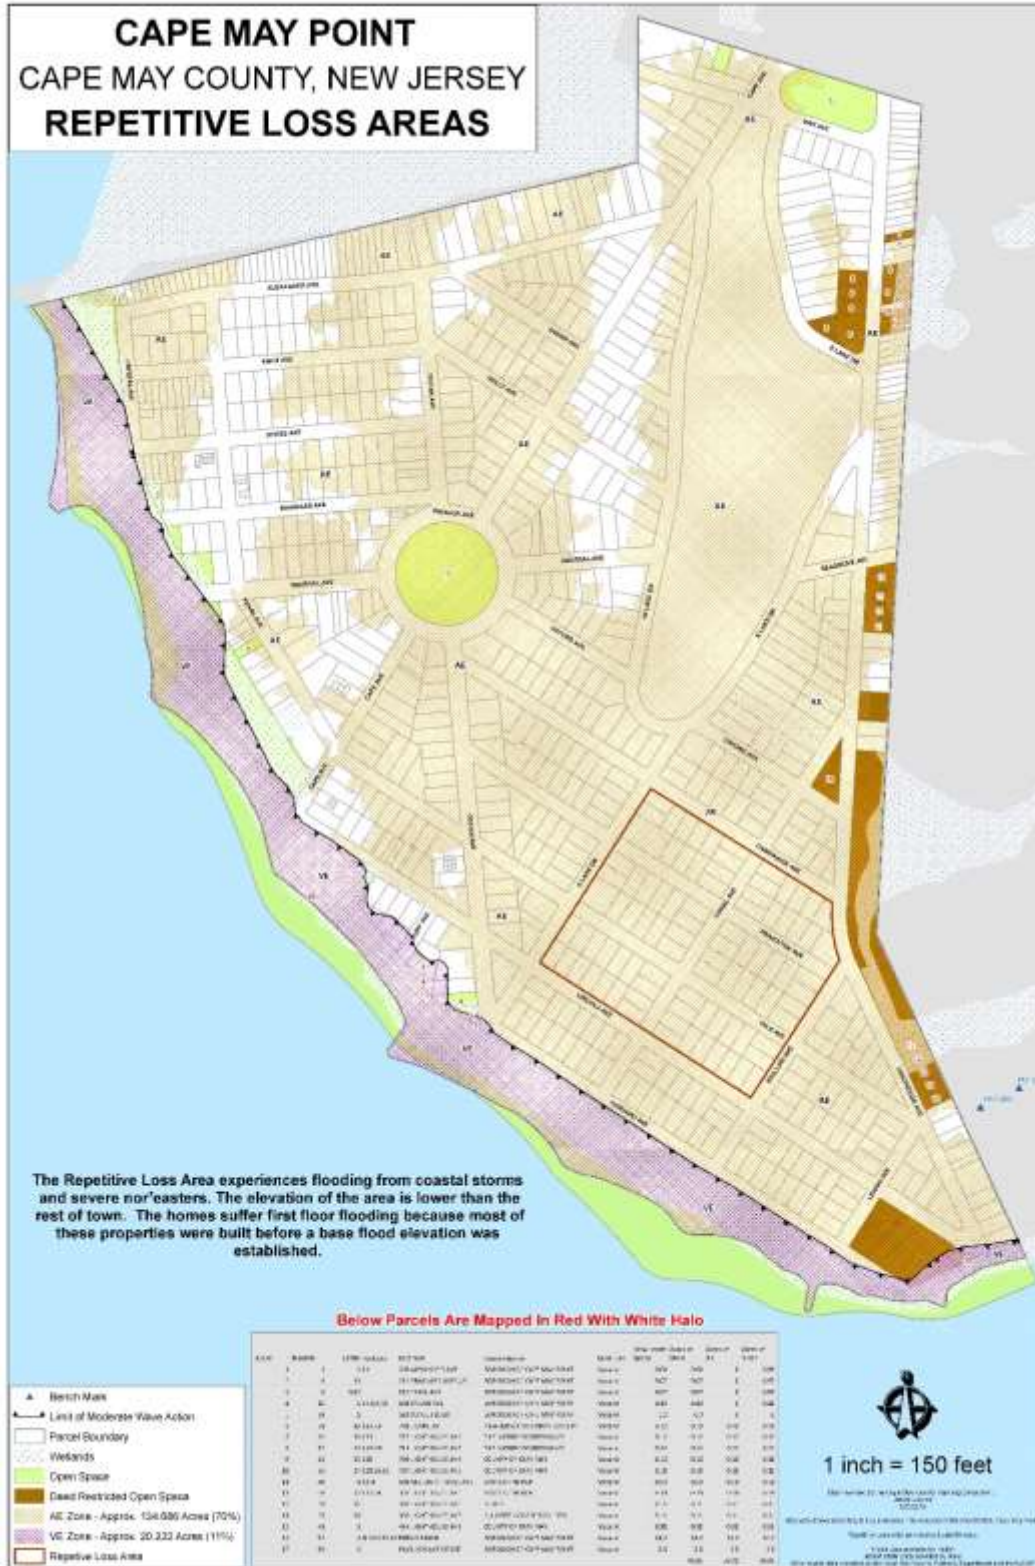

Figure G-3. City of Ocean City Repetitive Loss Areas

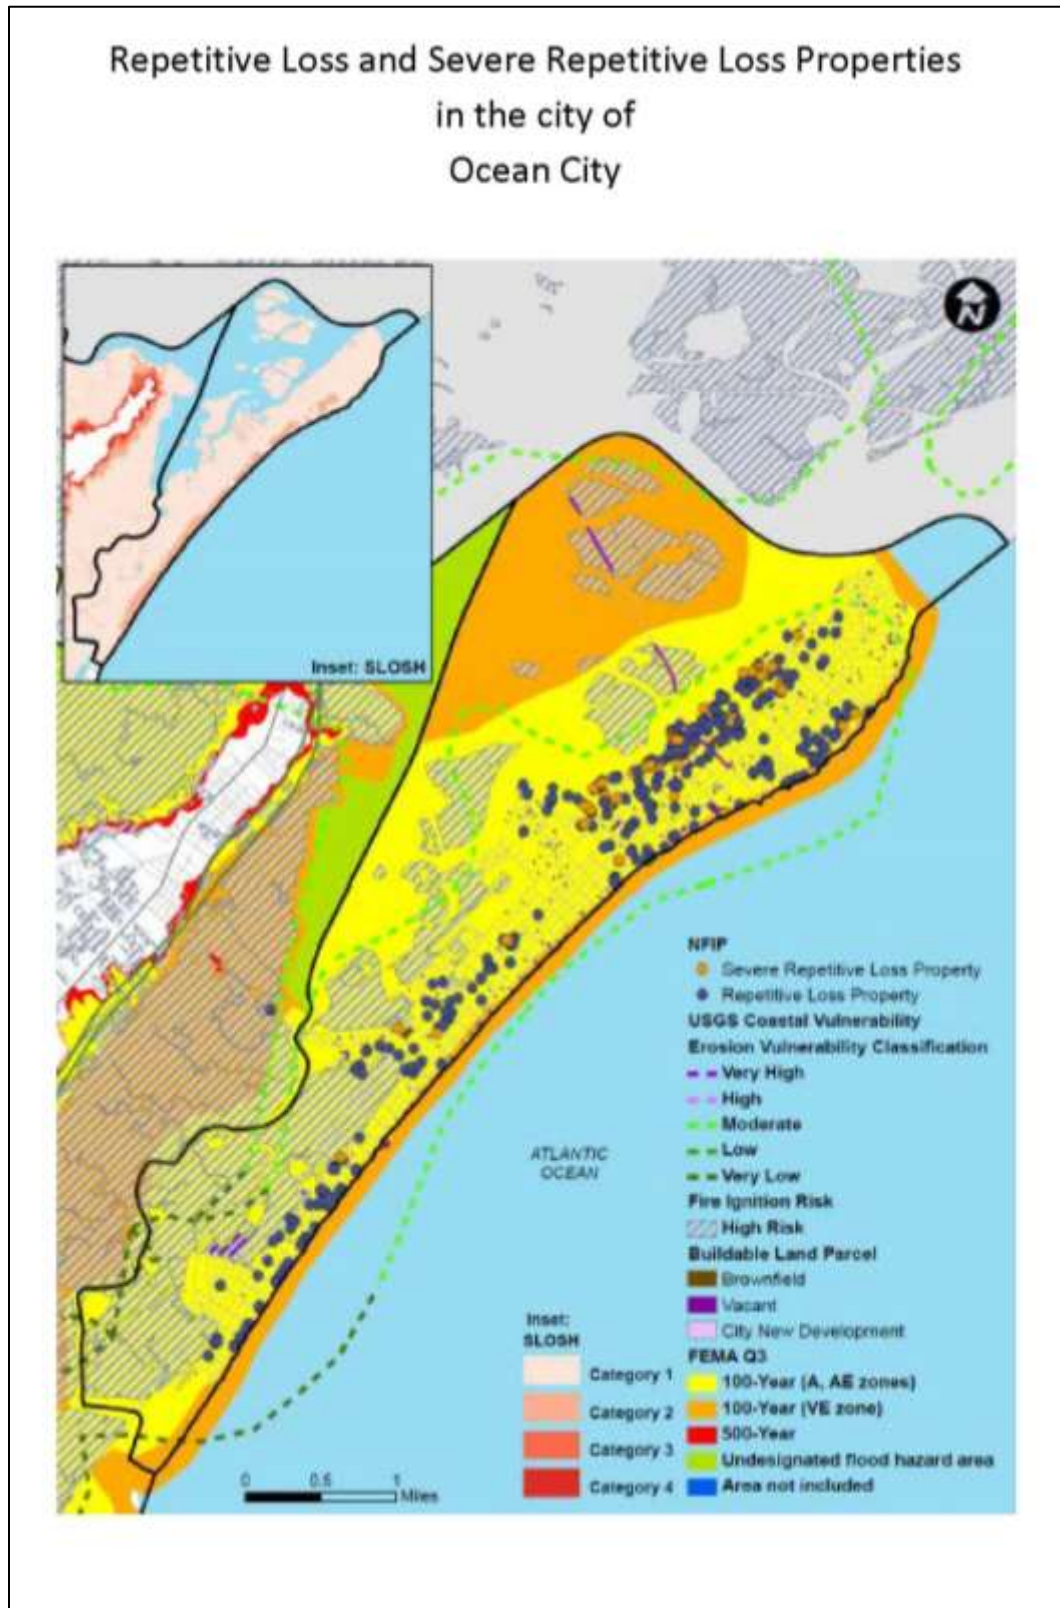

Figure G-4. Borough of Stone Harbor Repetitive Loss Areas

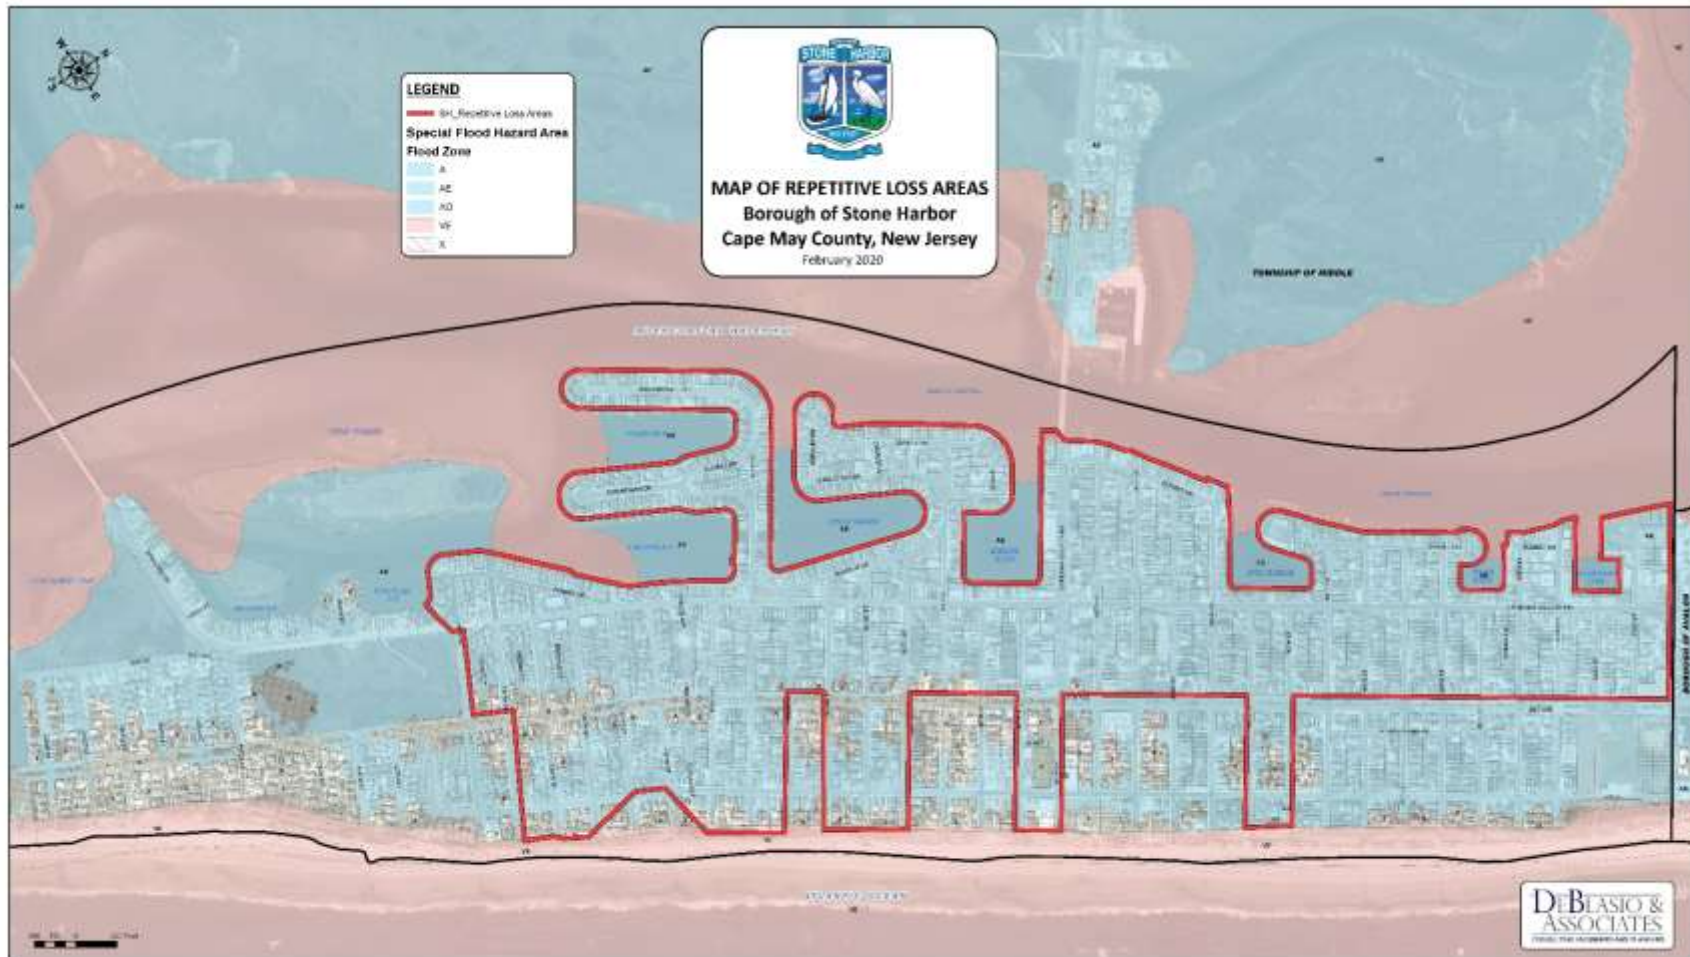

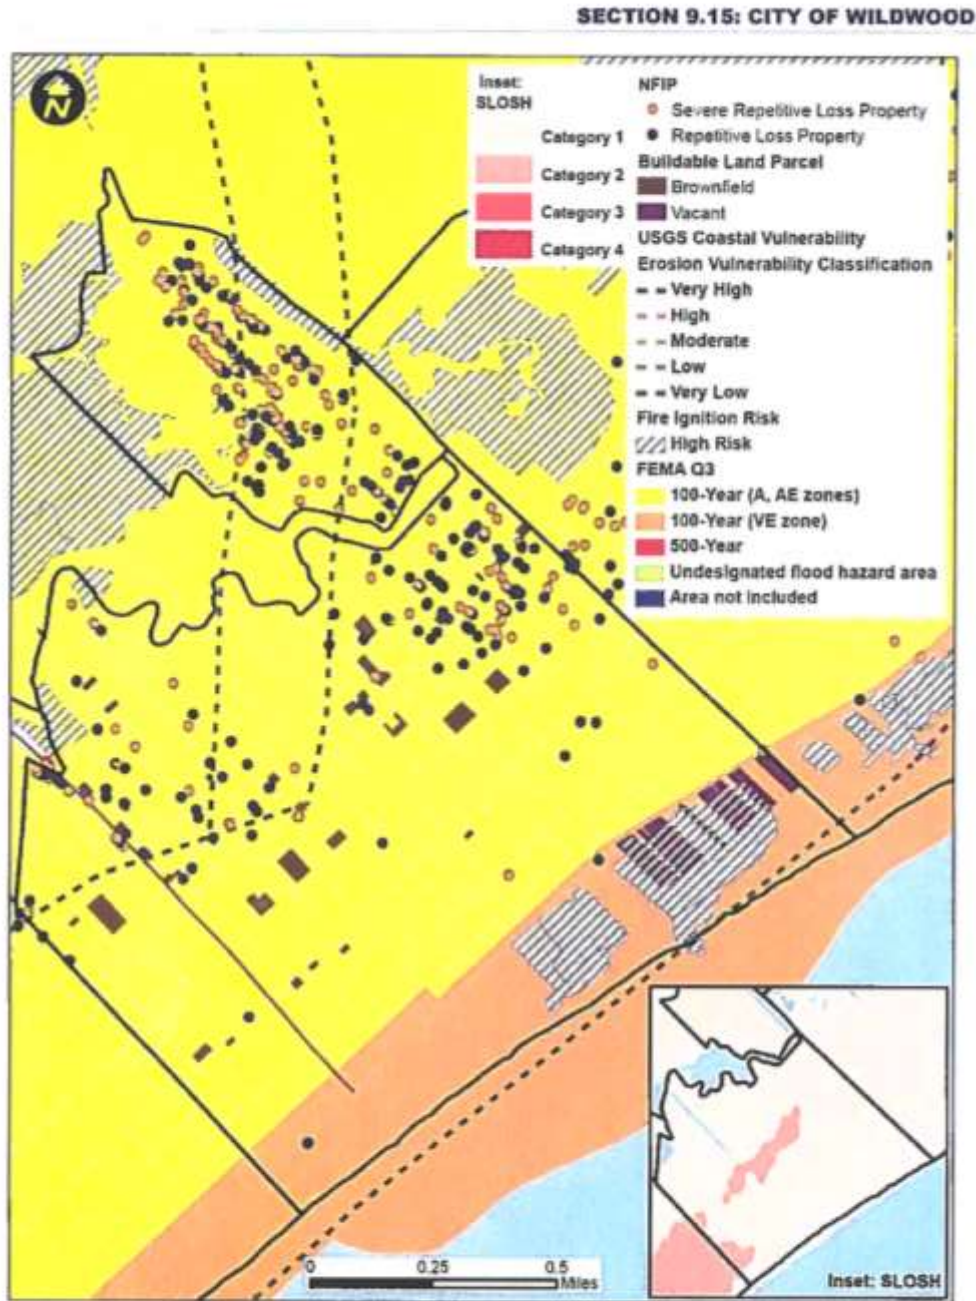

Figure G-5. City of Wildwood Repetitive Loss Areas

Sources: USGS, 2001; FEMA Q3; Cape May County Planning Department; Maser, 2009

Notes: The entire municipality is vulnerable to the following hazards: coastal storm, severe storm and severe winter storm. Only the high risk wildfire areas are illustrated on this map; please refer to Section 5.4.6 for all wildfire hazard risk areas. At this time, there is no defined tsunami hazard area for Cape May County.

G.2 Stakeholder Outreach

The following provides stakeholder outreach materials and the list of stakeholders involved in the planning process.

Table G-1. List of Stakeholders Invited to Participate in the Planning Process

| Organization | Name | Title |
|--|--------------------------|--|

| The Chalfonte | Robert and Linda Mullock | Owner |
| Sturdy Savings Bank | Gerald L. Reeves | President |
| Wildlife Restoration Partnerships | Lawrence Niles | |

On November 12, 2020, each stakeholder was invited to have a discussion about flooding and how their organization participates in flood-related measures in Cape May County. Figure G-6 provides the email sent to the stakeholders inviting them to participate in a discussion. As a result of the email, U.S. Fish and Wildlife service provided information during several phone conversations. A summary of the conversation is found in Volume I, Section 6 (Mitigation Strategy) of the plan update.

Subject: Cape May County Hazard Mitigation Plan - Request for Stakeholder Input

Good Morning Cape May County HMP Planning Stakeholders,

As we steadily progress through the Hazard Mitigation Planning process, at this point we would like to solicit comment from our planning stakeholders about flooding in Cape May County. This will assist us in fulfilling requirements from the FEMA Community Rating System program, which is a voluntary incentive program that lowers flood insurance premiums for policyholders.

We would like to schedule a time to discuss your organization vis-à-vis flooding in the County and determine whether your organization participates in any flood mitigation measures, such as through the provision of technical assistance, social assistance, or participation in emergency and planning initiatives. We would also like to extend an opportunity to be a part of the Hazard Mitigation Planning effort and invite you to comment upon the County's Hazard Mitigation Plan when available for public review.

If you have availability over the next few weeks, please let us know and we will be in touch.

We look forward to hearing from you! Thank you!

Heather Apgar, CFM | Hazard Mitigation Planner
